

FUEL SYSTEM TREATMENT

🔥 CLEANS + 🛡️ CONDITIONS + 🛡️ PREVENTS

Carbon buildup across the fuel system can reduce the efficiency of engine combustion. Piston and cylinder wear at start up can harm parts and cause mileage robbing friction. Gumout® Fuel System Treatment removes carbon deposits from engine parts to maximize engine performance and fuel economy. Plus it lubricates the upper cylinder to enhance engine longevity and maximize MPG.

Information

Size	US Item #	CAN Item #
6oz	510015	
12oz	510107	

⚠️ WARNING

This product can expose you to chemicals including Naphthalene, which is known to the State of California to cause cancer. For more information go to www.P65Warnings.ca.gov.

Directions

510015 - 6oz

- Add entire bottle to nearly empty gasoline tank, then fill tank with up to 21 gallons of gasoline.
- For best results, do not refill tank until near empty.
- Use every 3,000 miles.

Oxygen sensor safe. Safe for use in turbocharged and supercharged vehicles. Will not void OEM/manufacture's warranty.

510107 - 12oz

- Add entire bottle to nearly empty gasoline tank. Refill tank with up to 19 gallons of gasoline.
- For best results, do not refill tank until near empty.
- Repeat every 3,000 miles.

The product contains no alcohol and will not harm catalytic converters or oxygen sensors. Can be used with all unleaded, oxygenated, and reformulated gasolines. Safe to use with other Gumout® fuel additives.
